- He did a great job on explaining the materials
- Honestly did not attend any discussions.
- I really enjoyed having you as my TA. I thought you taught the class very well. I would say it would be nice if you could give more examples that closer reflect the quizzes, midterm and final.
- Very Good TA. Came prepared for class and ready to teach. Was able to summarize complicated material into simple explanations.
- Never attended discussion, so no comment.
- Very helpful
- The discussions helped me understand how to solve feedback control problems.
- He's the best TA ever. A very helpful guy!
- I love this TA. I can honestly say that Ziran is the best TA I ever had in my 3 years at UCR and 4 years of college. He is very useful and understanding. Discussions sections are nicely organized and he teaches us what we really need to learn for the class. Most TAs do example problems or review the lecture (which, for the most part, are boring in my opinion), but Ziran does more than that. He teaches us what we need to know in a way that can be easily understood. I have never missed a discussion session that has been taught by him. Thanks for the great quarter Ziran!
- Ziran is a very helpful T.A. Great at teaching and definitely clarifies the content, especially during office hours. I think what would help would be if he were more engaging during discussion, rather than copying what's down on the paper. For instance, pose the question, and then try to get our approaches on it, then walk us through it step by step. As it is, it sometimes feels as though we're just copying what's on the paper. Otherwise, I thought Ziran was fantastic.
- Ziran did an amazing job. He was always prepared and did an amazing job of clarifying lecture notes and going further into topics discussed in class. He has an amazing command of the material and taught it both effectively and enthusiastically. I would love to have him as a TA again!
- good job
